

ADARSH RAJARAM HEGDE

Product Leader

Dublin, Ireland | (+353) 089-451-6970 | contactadarshr@gmail.com | [linkedin.com/in/contactadarshrajaram](https://www.linkedin.com/in/contactadarshrajaram)

Professional Summary

Product Leader and Senior Individual Contributor with 7+ years of end-to-end ownership of data-driven, regulated, enterprise-scale products across payments, FinTech, and SaaS environments. Proven ability to define product strategy, build and execute roadmaps, launch revenue-impacting capabilities, and measure performance through KPIs and analytics. Deep experience operating in highly regulated payments ecosystems, navigating multiple compliance frameworks, jurisdictional rules, and risk controls, and translating this complexity into scalable, compliant, and monetisable product capabilities. Operates as a hands-on Individual Contributor, owning products from discovery through launch, optimisation, and scale, while influencing VP- and Director-level stakeholders without formal people management.

CORE PRODUCT CAPABILITIES

- End-to-End Product Ownership (0→1, Scale, Optimisation)
- Product Strategy, Vision & Roadmapping
- Revenue Enablement & Cost Efficiency
- KPI Definition, Performance Measurement & Forecasting
- Regulated, Compliance-Heavy Platforms
- Data, Analytics & AI-Enabled Products
- Executive Stakeholder Influence
- Go-to-Market & Adoption Strategy

Work experience

Creditsafe Ireland Pvt Ltd, Dublin

August 2025 - December 2025

Senior Product Manager- AI enrichment and Monitoring team (Contract)

- Owned the product lifecycle for AI-driven enrichment and monitoring capabilities supporting risk, compliance, and data quality use cases.
- Defined product vision, roadmap, and success metrics aligned to customer value, regulatory expectations, and commercial objectives.
- Operated as a hands-on individual contributor, maintaining direct accountability for strategy, execution, and measurable outcomes.
- Partnered with engineering, data, and security teams to translate complex compliance and monitoring requirements into scalable AI-powered features.
- Led product discovery and prioritisation activities, balancing time-to-market, technical feasibility, and regulatory considerations.
- Established and tracked product KPIs to measure adoption, performance, accuracy, and business impact.
- Supported go-to-market readiness, including stakeholder enablement, rollout planning, and post-launch performance tracking.
- Managed product development within regulated data environments, ensuring compliance with data governance, privacy, and industry-specific regulatory standards.
- Worked closely with compliance and risk teams to embed policy-driven controls into AI enrichment and monitoring workflows.

Mastercard Ireland, Dublin, IE

October 2021 - December 2024

Senior Product Manager - AI, Data Analytics and Engineering

- Owned end-to-end product strategy, roadmap, and execution for enterprise-scale payments, analytics, and AI platforms operating under multiple regulatory and compliance frameworks.

- Acted as a senior individual contributor, directly accountable for product discovery, delivery, go-to-market readiness, and post-launch performance.
- Translated complex payments compliance, risk, and security requirements into scalable product capabilities across high-volume transaction environments.
- Defined and managed multi-quarter roadmaps aligned to revenue enablement, operational efficiency, fraud detection, and regulatory obligations.
- Partnered closely with risk, compliance, legal, and security stakeholders to ensure products met jurisdiction-specific controls without compromising scalability or customer experience.
- Led cross-functional collaboration with engineering, data science, and architecture teams to deliver real-time monitoring, advanced analytics, and ML-enabled insights.
- Defined and owned product KPIs and executive dashboards covering adoption, transaction trends, fraud indicators, compliance metrics, and system performance.
- Used data-driven insights to prioritise initiatives, manage trade-offs, and continuously refine product strategy.
- Influenced VP- and Director-level stakeholders through clear product narratives, analytics-backed recommendations, and structured decision frameworks.
- Ensured alignment across interconnected platforms by managing dependencies, shared capabilities, and cross-portfolio priorities.
- Navigated complex global payments regulations and internal risk policies, ensuring product capabilities adhered to regional, network, and jurisdiction-specific compliance requirements.
- Partnered with legal, regulatory, and policy teams to interpret evolving regulations and translate them into clear, actionable product requirements.
- Ensured product designs incorporated auditability, traceability, and regulatory reporting controls, enabling compliance at scale across high-volume transaction platforms.

CGI Inc. Bangalore, Karnataka

March 2018 - May 2020

Associate Product Manager

- Supported the delivery of enterprise reporting and analytics products for finance and operations-focused platforms.
- Owned and prioritised the product backlog, translating business intelligence, reporting, and compliance requirements into actionable user stories.
- Collaborated with engineering, UX, and business stakeholders to deliver data-driven features aligned to operational KPIs.
- Assisted in defining analytics frameworks, dashboards, and reporting capabilities to improve transparency and decision-making.
- Participated in product discovery and requirement refinement to ensure solutions addressed real business and regulatory needs.
- Supported Agile delivery through backlog refinement, sprint planning, and continuous feedback loops.
- Contributed to improving data quality, reporting consistency, and stakeholder confidence in analytics outputs.
