

ADARSH RAJARAM HEGDE

Senior Product Manager

Dublin, Ireland | (+353) 089-451-6970 | contactadarshr@gmail.com | [linkedin.com/in/contactadarshrajaram](https://www.linkedin.com/in/contactadarshrajaram)

Objective

Experienced and results-driven **Product Manager with 6 years of experience** delivering innovative digital solutions across B2B SaaS, digital commerce, and in-store technology platforms. Adept at leading cross-functional teams, defining data-driven product strategies, and executing complex roadmaps from concept to launch. Proven expertise in customer-centric product design, Agile delivery, stakeholder alignment, and platform modernization. Seeking a dynamic product role where I can leverage my background to drive meaningful customer impact, lead end-to-end product delivery, and contribute to business growth through technology and innovation.

Professional Summary

Product Manager with **6 years of experience** in B2B SaaS, finance, and digital commerce. Proven ability to lead cross-functional teams, define product strategy, and deliver user-centric solutions across web, mobile, and in-store platforms. Skilled in Agile delivery, customer research, and data-driven decision-making. Passionate about building scalable products that solve real problems and drive business impact.

Work experience

Mastercard Ireland, Dublin, IE

October 2021 - present

Senior Product Manager

- Defined and executed end-to-end product roadmaps across multiple platforms (web, mobile, in-store), aligning business objectives with customer needs and market opportunities.
- Conducted deep customer research and data analysis to identify pain points, validate hypotheses, and prioritize features that delivered real business impact.
- Led cross-functional collaboration with UX designers, engineers, QA, marketing, and customer service teams to ship user-centric features on time and at scale.
- Owned in-store technology solutions such as customer self-service ordering, smart checkout, and fraud protection modules resulting in increased adoption and reduced drop-offs.
- Worked with Agile methodologies, managing product backlogs, facilitating sprint planning, retrospectives, and delivering incremental value through continuous iteration.
- Collaborated closely with internal and external engineering teams to translate user stories and requirements into technically feasible, scalable solutions.
- Partnered with customer success, insights, and support to build feedback loops, track product performance, and refine features post-launch.
- Drove migration and modernization initiatives, including platform redesigns and UX refreshes, while maintaining backward compatibility and minimizing disruption for existing users.
- Utilized tools like JIRA, Confluence, Figma, Pendo, and Miro to support product planning, collaboration, and stakeholder communication.
- Maintained strong stakeholder relationships, presenting product strategy, progress, and performance metrics to senior leadership and cross-departmental teams.
- Advocated for product management best practices and contributed to building a product-driven culture focused on innovation, simplicity, and customer value. Managed multiple product streams simultaneously, demonstrating agility in fast-paced environments with evolving priorities.

CGI Inc. Bangalore, Karnataka

March 2018 - May 2020

Associate Product Manager/ Product Owner

- Collaborated with cross-functional teams including engineering, design, QA, and marketing to deliver product features aligned with business goals and user needs. Conducted user interviews, analyzed product usage data, and gathered feedback to define and prioritize product requirements.
- Wrote clear and actionable user stories, acceptance criteria, and maintained the product backlog in Agile tools such as JIRA and Trello. Supported sprint planning, daily stand-ups, and retrospectives, ensuring smooth and consistent delivery of product increments.
- Contributed to roadmap planning by identifying opportunities through market research, competitor analysis, and customer feedback. Participated in QA testing and user acceptance testing (UAT) to ensure quality and functionality before feature releases.
- Assisted in product launch coordination with marketing and customer support teams to ensure successful go-to-market execution. Monitored product performance using analytics tools, helping drive data-informed improvements.
- Acted as a key liaison between stakeholders and technical teams, ensuring clear communication and alignment on priorities.
- Supported senior product managers in strategic initiatives, helping document product vision and longer-term plans.
