Senior Product and Program Manager

Dublin, Ireland | (+353) 089-451-6970 | contactadarshr@gmail.com | [linkedin.com/in/contactadarshrajaram](https://www.linkedin.com/in/contactadarshrajaram)

Professional Summary

Strategic and technically proficient Product and program Manager and team leader with over 6 years of experience driving innovation across fintech, marketing, and retail technology sectors. Skilled in defining and executing data-driven product strategies that align business goals with scalable, customer-focused outcomes. Experienced in leading cross-functional teams through the full product lifecycle discovery, roadmap planning, delivery, and optimization while fostering collaboration, accountability, and agile excellence. I specialise in translating complex technical capabilities LLMs, multi-agent AI systems, cloud native architectures, and real-time decisioning into scalable customer-facing solutions. I lead product strategy, roadmap execution, and cross-functional delivery, ensuring measurable business impact through clear KPIs. My work has accelerated adoption, improved operational efficiency, and enabled intelligent automation across high-volume platforms. With strong technical depth and stakeholder alignment skills, I consistently drive products from concept to market while ensuring reliability, performance, and meaningful customer value.

Work experience

Creditsafe Ireland Pvt Ltd, Dublin

August 2025 - November 2025

Senior Product Manager- AI enrichment and Monitoring team (Contract)

- Led the end-to-end management of multiple concurrent information security and compliance projects, ensuring on-time delivery and alignment with objectives and stakeholder expectations.
- Acted as Agile Team Coach for cross-functional InfoSec teams, fostering maturity in Agile practices and improving delivery cadence across security programs.
- Applied SAFe and Agile principles to drive project delivery, emphasizing value generation, risk mitigation, and process improvement in security-related initiatives.
- Built and maintained detailed project schedules, defined milestones, tracked deliverables, and identified dependencies to enhance visibility and accountability across InfoSec programs.
- Conducted regular stakeholder communications and reporting, ensuring transparency on progress, risks, issues, and key decisions across multiple levels of the organization.
- Proactively managed project risks and impediments, leading mitigation efforts and facilitating resolution through cross-team collaboration and decision-making frameworks.
- Organized and facilitated inclusive and purpose-driven meetings to accelerate action items, escalate blockers, and ensure alignment on project objectives across security, engineering, and business teams.
- Supported leadership with the implementation of scalable PMO processes and standards, driving operational efficiency and governance across the security program portfolio.
- Used enterprise collaboration tools like Atlassian Jira and Confluence to manage project documentation, sprint backlogs, status tracking, and knowledge sharing.
- Collaborated with cloud security and compliance teams to deliver initiatives securing cloud infrastructure, aligning projects with Twilio's information security policies and frameworks.

Mastercard Ireland, Dublin, IE

October 2021 - December 2024

Senior Product Manager - AI, Data Analytics and Engineering

- Led cross-functional programs from initiation to delivery, managing multiple concurrent projects and ensuring alignment with business goals and stakeholder expectations.
- Facilitated Agile ceremonies, coached teams on Agile/Scrum best practices, and promoted continuous improvement to enhance team performance and delivery outcomes.
- Created and maintained detailed project schedules, roadmaps, and milestones, ensuring clear tracking of deliverables, dependencies, and progress across teams.

- Identified and mitigated risks and issues proactively, driving resolution through structured escalation paths and collaborative decision-making.
- Managed stakeholder communications through regular updates, dashboards, and reports, ensuring transparency and alignment at all organizational levels.
- Organized and led purpose-driven meetings to track project health, resolve blockers, and ensure timely execution of deliverables.
- Developed and enforced consistent project management standards and practices across teams, contributing to operational maturity and process optimization.
- Used tools such as Jira, Confluence, and MS Project to manage backlogs, track status, and document project artifacts and lessons learned.
- Collaborated with engineering, product, and business teams to define requirements, scope initiatives, and ensure successful handoff and delivery.
- Supported portfolio-level planning by tracking dependencies, prioritizing initiatives, and aligning resources with strategic objectives.
