Mastercard Ireland, Dublin, IE

October 2021 - present

Senior Product Manager

- Implemented and maintained the Product strategy, Product vision, and priorities for Architect to ensure we lead the market for intelligent self-service platforms. Also Align internal and external teams on product vision and strategy.
- Represented as product expert with customers and customer-facing (pre and post) teams to evangelise, position, and communicate the benefits and functionality we deliver.
- Establish priorities, drive, and measure progress on activities.
- Understanding the intricacies of a product and communicate with Project/Product stakeholders to understand their requirements and translate them into details. Also communicating these requirements with developers in the team.
- Collaborated with cross functional teams like Design UI/UX, Engineering and Release teams to prioritise and deliver products and features to market. Coordinated with marketing, sales, customer success, finance, and others to ensure our products are a coherent offer that is easy to sell and drives adoption and growth.
- Regularly refined and prioritised the product roadmap using customer insights, data, and stakeholder input. Represented as Point of contact for negotiation and trade-off discussions where needed.
- Defined high-quality epics and features with thoughtful acceptance criteria which result in delivery of customer value, and solutions that reduce workload for our Customer Experience (CX) organisation in favour of valuable self-service capabilities.
- Utilised data and analytics to inform decision-making processes, monitored product performance metrics, user engagement, and customer feedback to prioritise development efforts and optimise user experience.
- Managed a cross-functional team of designers, developers, and marketers, increasing product development efficiency by 30%. Initiated and executed A/B testing protocols that improved user retention rates by 25% within the first year.
- Streamlined stakeholder communication, resulting in faster turnaround times for feature requests and bug fixes.

CGI Inc. Bangalore, Karnataka

March 2018 - May 2020
