

ADARSH RAJARAM HEGDE

Senior Product Manager - Technical

Dublin, Ireland | (+353) 089-451-6970 | contactadarshr@gmail.com | [linkedin.com/in/contactadarshrajaram](https://www.linkedin.com/in/contactadarshrajaram)

Objective

Experienced **System Analyst** and **Technical Product Manager** with 6+ years of experience translating complex business requirements into scalable technical solutions across financial services and technology domains. Adept at systems analysis, process mapping, and technical documentation, with hands-on experience collaborating across engineering, operations, and business units to deliver high-impact platforms and services. Proven ability to drive technical discussions, own product roadmaps, define functional specifications, and support system design and integration. Proficient in tools such as Jira, Confluence, Visio, Tableau, and Lucidchart.

Professional Summary

Technical Product Manager with **6 years of experience** in B2B SaaS, finance, and digital commerce. Proven ability to lead cross-functional teams, define product strategy, and deliver user-centric solutions across web, mobile, and in-store platforms. Skilled in Agile delivery, customer research, and data-driven decision-making. Passionate about building scalable products that solve real problems and drive business impact.

Work experience

Mastercard Ireland, Dublin, IE

October 2021 - December 2024

Senior Product Manager - Technical

- Led end-to-end product lifecycle management for AI-driven workflow automation solutions, from discovery to delivery, across enterprise-scale platforms.
- Defined and executed strategic product roadmaps focused on streamlining business operations, improving efficiency, and reducing manual intervention through intelligent automation.
- Collaborated closely with data science, engineering, and UX teams to design, build, and deploy machine learning models that integrated seamlessly with core business workflows.
- Identified and prioritized high-impact automation opportunities through user research, process mapping, and performance data analysis.
- Acted as the primary bridge between product stakeholders and engineering teams, translating business needs into detailed technical requirements and epics.
- Led the system analysis for multiple data product initiatives, including API integration, process redesign, and platform improvements.
- Created user flows, sequence diagrams, and wireframes using Visio and Lucidchart to support technical architecture discussions.
- Conducted root-cause analysis on system performance issues and collaborated with data engineering for solutions.
- Maintained comprehensive documentation (BRDs, PRDs, specs) aligned with compliance and audit requirements.
- Supported UAT planning, test case writing, and defect triaging in collaboration with QA teams.

CGI Inc. Bangalore, Karnataka

March 2018 - May 2020

Associate Product Manager/ Product Owner

- Translated customer business functions into technical requirements and ensured proper system design using tools like Microsoft Visio and Lucidchart.
- Delivered technical training and mentoring for team members on project-specific systems.
- Supported team lead responsibilities including sprint planning, backlog refinement, and delivery coordination.
- Designed Tableau dashboards to visualize product performance and present project growth to stakeholders.
- Collaborated with architects to propose scalable solutions and enhancements.

Education

National University Of Ireland Galway.

September 2020 - September 2021

Mater of Science in Business Analytics.

Graduated with 1.1 Honours (73% Aggregate).
